## MODERNIZING YOUR REGISTRATION

Digital Signup is a cloud-based Software-as-a-Service (SaaS) solution that provides all the features needed for managing classes and registration. The HIPAA compliant solution has multiple features to choose from with an integrated public facing site and admin site offering users a single platform for multiple purposes. Digital Signup is accessible on various browsers and devices including phones, tablets laptops, etc.

The solution is compliant with WCAG 2.0 and 508 (ADA compliance) with multilingual capabilities. The product offers a secure authentication, the ability to configure user roles/permissions and is PCI compliant for secure online payment processing.

## BENEFITS

The Digital Signup solution is designed with over 30 years of input from community education centers, hospitals and other training centers that offer classes coupled with the latest technology advancements. The SaaS solution provides a single platform to manage your classes, registrations, payments and enhance your community engagement and awareness.

Digital Signup has been proven to comply with all Information Technology and security requirements for major healthcare companies.

From search to payment, Digital Signup engages your customer with an intuitive design giving them more than a great shopping experience. With abundant administrative features and end-to-end automation, Digital Signup transforms your business saving you time and money, allowing your staff to focus on what they need to do.
